

AQUA HEALTH in association with Gauteng Environmental Services

AQUAMED

AQUAMED was specially developed for the treatment and curing of fish and aquatic life s. ***AQUAMED*** is totally safe to use and environmentally friendly.

General Working

AQUAMED will dis-infect wounds and/or affected areas and will speed-up the healing process. ***AQUAMED*** activates the cell growth so that the wound heals quicker. This makes ***AQUAMED*** a highly effective but totally safe product for humans, animals and plants.

General Use

- ◆ Healing of wounds, internally and externally
- ◆ Kills pathogens, fungus, etc.
- ◆ Dis-Infects the affected area

Dosing Method

- ◆ Apply ***AQUAMED*** to the water as specified
- ◆ Dilute the specified dosage into a bucket with 25l of pond water
- ◆ Distribute evenly around the edges
- ◆ 1 Litre ***AQUAMED*** to 50 000 liters water (1 : 50 000)
- ◆ If the bacterial contamination is high another dosage could be necessary
- ◆ PLEASE be precise and careful when calculating the size of your pond or dam
- ◆ DO NOT OVERDOSE ! Although the product is environmentally friendly over dosage could be harmful to aquatic life
- ◆ If any other product has been used in the past 7 to14 days, DON'T DOSE before consulting with your distributor
