

AQUA HEALTH in association with Gauteng Environmental Services

ANIMAL-H2O

ANIMAL-H2O was specially developed for the treatment of animal drinking water. *ANIMAL-H2O* will put some of the much-needed natural minerals back into the drinking water. *ANIMAL-H2O* will enhance the immunity of the animal. *ANIMAL-H2O* will kill and control algae. *ANIMAL-H2O* is totally safe to use and environmentally friendly.

General Working

ANIMAL-H2O will sterilize water troughs and drinking places. *ANIMAL-H2O* will sterilize the area around the mouth of the animal thereby eliminating diseases caused by pathogens entering the mouth of the animal. Because the animal drinks the *ANIMAL-H2O* in the water, it will automatically cure the area in and around the mouth. *ANIMAL-H2O* is a highly effective but totally safe product for humans, animals and plants.

Application

- ◆ Horses – Stables
- ◆ Cattle – Beef & Milk
- ◆ Sheep
- ◆ Pigs
- ◆ Chickens
- ◆ Pigeons
- ◆ Pets – Cats & Dogs

General Use

- ◆ Control algae in drinking water
- ◆ Eliminating disease before entering the mouth of a animal

Dosing Method

- ◆ Add to the water troughs and drinking places of animals
- ◆ Add on a continuous basis to the water supply for effective continuous treatment

Dilutions

- ◆ Dilute into the drinking water at a ratio of 1 : 5 000
- ◆ Dilute into water for fast algae removal 1 : 10 NB! Release water into soil. Not for animal consumption
