

AQUA HEALTH in association with Gauteng Environmental Services

CLEARCOOL

CLEARCOOL is an industrial strength cooling tower water treatment product. **CLEARCOOL** is a 100% environmentally friendly product, safe for humans, animals and plants.

CLEARCOOL is a three in one product. **CLEARCOOL** will kill all bacteria, algae and will softens and decalsify the water. **CLEARCOOL** will flocculate the impurities in the water.

CLEARCOOL is also used in airconditioning systems and filters. **CLEARCOOL** is non-corrosive. **CLEARCOOL** ensures that all air in the system is bacteria free, fresh and healthy.

ADVANTAGES OF CLEARCOOL

- ◆ Water can be re-used after released from cooling system
- ◆ Water is safe for humans, animals and plant life
- ◆ Cooling water can be used by humans and is non toxic and not poisonous
- ◆ De-Calsifier
- ◆ Prevent and cure rust in pipes and equipment

GENERAL APPLICATION

- ◆ Treatment of cooling tower water
- ◆ Treatment of wetwall water
- ◆ De-calsifier in all pipes and elements
- ◆ In air conditioners to enhance bacteria free clean air
- ◆ Treatment and prevention of rust in pipes and equipment

DOSING METHOD

- ◆ Product must be diluted as per specification for the specific application.
- ◆ Product is diluted into reservoir for application.
- ◆ Product is mixed automatically into make-up water of cooling towers or wet walls.

DILUTIONS

- ◆ 1 Litre **CLEARCOOL** : 15 000 litres water (1 : 15 000)
