DL50-GRANULAR

DRAIN LINE BLEND

DL50-GRANULAR1 is a natural biological treatment product, designed for the food service industry to digest the grease, fats and oils that accumulate in drain lines and keep them free flowing.

DL50-GRANULAR is a live synergistic blend of all natural, Class 1 bacteria specifically chosen for their accelerated ability to metabolize solids, grease, fats, proteins, lipids, detergents and other contaminants into carbon dioxide and water.

DL50-GRANULAR, when used as a regular preventative maintenance product, will reduce and eliminate grease, fats and oil buildup in drain lines.

DL50-GRANULAR is an industrial strength product for commercial, industrial and municipal use.
