

AQUA HEALTH in association with Gauteng Environmental Services

FM

FOOD MANUFACTURING BLEND

FM is a natural biological treatment product, designed to reduce COD, BOD, TSS, TPH without having to increase treatment plant current facilities and/or size.

FM is a live synergistic blend of all natural, Class 1 bacteria specifically chosen for their accelerated ability to metabolize solids, grease, fats, proteins, lipids and other contaminants into carbon dioxide and water.

FM, when used as a regular maintenance product, will reduce surcharges that are due to excessive COD, BOD, TSS and TPH.

FM is an industrial strength product for commercial, industrial and municipal use.

APPLICATIONS FOR THE USE OF FM

FM will DIGEST

- **INDUSTRIAL HYDROCARBON WASTE**
- **COD, BOD**
- **TSS**
- **TPH**
- **SOLIDS**
- **GREASE, FATS & OILS**
- **BTEX**

APPLICATIONS FOR THE USE OF FM

- **WASTE WATER TREATMENT PLANTS – FOOD MANUFACTURER**
- **MUNICIPALITIES**

CHARACTERISTICS OF FM

- **Saves Money**
- **Reduce surcharges**
- **Environmentally friendly and safe to use**
- **Contains only natural elements**
- **Increase Efficiency**
- **Reduce buildup of fats greases & oils**
- **Low Cost**
- **100% Natural**
- **Neutralizes Foul Odors**
