ST

SEPTIC TANK BLEND

ST is a natural biological treatment product, design for home septic systems to digest organic wastes, grease, fats and oils that accumulate in septic tanks and keep them free flowing.

ST is a live synergistic blend of all natural, Class 1 bacteria specifically chosen for their accelerated ability to metabolize solids, grease, fats, proteins, lipids and detergents into carbon dioxide and water.

ST are completely natural, non-engineered, non-pathogenic, non-toxic bacteria that are chosen for their safety value.

ST reduces maintenance of septic tanks and reduces the necessity to pump or clean it by as much as 80%. **ST** will also eliminate foul odors associated with the buildup of organic waste. **ST** is available in industrial strength for commercial use. Biological leaching field recovery product is also available.

ST WILL DIGEST

- **DETERGENTS**
- **LIPIDS**
- **PROTEIN**
- **GREASE, FATS & OILS**
- **STARCHES**
- **CELLULOSE**

GENERAL AREAS OF APPLICATION OF ST

- **Game reserves**
- **Small developments**
- **Restaurants**
- **Hotels**
- **Shopping Malls**
- **Cafeteria / Canteen**
- **Domestic**

CHARACTERISTICS OF ST

- **Saves Money**
- **Environmentally friendly and safe to use**
- **Contains only natural elements**
- **Reduce pumping**
- **Low Cost**
- **100% Natural**
- **Neutralizes Foul Odors**
