

AQUA HEALTH in association with Gauteng Environmental Services

STERIH2O

STERIH2O is an industrial strength water purifier that eliminates bacteria and algae. **STERIH2O** is 100% environmentally friendly. **STERIH2O** DOES NOT contain any chlorides. **STERIH2O** is totally safe to handle and to store. **STERIH2O** is safe for humans, animals and plants. **STERIH2O** can be used in many different applications.

GENERAL APPLICATION

- ◆ Dis-infection of large volumes of drinking water
- ◆ Treatment of large volumes of water for human consumption
- ◆ Treatment of large volumes of water contamination by bacteria and algae
- ◆ Replace chlorine-type dis-infection
- ◆ Replace any harmful gas dis-infection treatment of water
- ◆ No more problem with the level of free chlorine in the water

DOSING METHOD

- ◆ **STERIH2O** is dosed via a flow proportional pump. This ensures that **STERIH2O** is dosed at the most economical rate possible.
- ◆ Bacterial viability test should be carried out regularly to ensure the efficient dis-infection of the contaminated area or volume of water.

DILUTION

- ◆ Dilute 1l **STERIH2O** in 100 000l of water (1 : 100 000)
