

## **AQUA HEALTH in association with Gauteng Environmental Services**

### **STERISOIL**

**STERISOIL** was specially developed for the preparation and treatment of beds before planting. **STERISOIL** replace products like bromide that are dangerous to work with as well as harmful to the environment.

**STERISOIL** is environmentally friendly and safe for humans, animals and plants. **STERISOIL** can be used in many applications.

### **General Working**

**STERISOIL** will kill all unwanted insects and worms and will sterilize your soil in the beds before planting commence. **STERISOIL** will kill all harmful bacteria and spores to give you a healthy bed to grow your crops in. This makes **STERISOIL** a highly effective but totally safe product for humans, animals and plants.

### **General Use**

- ◆ Sterilizing soil to ensure healthy crops with an exceptional yield.

### **Dosing Method**

- ◆ Product can be applied through the use of sprayers onto the beds or fields

### **Dilutions**

- ◆ For applying through the use of sprayers – 1 : 10 000
- ◆ First application before planting – 1 : 5 000
